Introduction:

The IARU Region 1 HF Manager Handbook gives recommendations for fieldday activities. However, national rules deviate in different ways.

For some years logs are already exchanged between some member societies in IARU Region 1 (G, HB9, ON, I, UA, DL).

To improve the joint analysis of logs similar categories and rules - on an agreed international basis - would be of great help.

Proposal: To form a suitable platform to discuss this matter, possibly in a sub-working group with reflector, and find common rules and submit a recommendation to the next conference.
