### Introduction

Some errors remain in the HF Manager Handbook related to the change in the 29 MHz band plan at the Region 1 Conference in Varna 2014

### Proposal

The 28 MHz band plan still shows the 2700 Hz all modes segment ending at 29.100 MHz. This was changed to 29.000 MHz during the Region 1 Conference in Varna, but the graphics were not updated. This should be corrected.

### Recommendation

That the blue segment in the table in the HF Manager Handbook v8.1 page 11-3 be changed to show the 2700 Hz segment ending at 29000 kHz and not 29100 kHz.
