

International Amateur Radio Union Region 1

2017 General Conference – Landshut, Germany
16 – 23 September 2017

Subject:	Emergency Communications Frequency usage at HF		
Society:	Emergency Communications	Country:	IARU Region 1
Committee:	C4	Paper number:	LA17_C4_06
Author:	Greg Mossop G0DUB		

Information Paper

1. Introduction

The incorporation of Emergency CoA into the Region 1 band plan has provided a useful focus for emergency communications activities.

No allocations are currently made for CoA in either the 160 or 30 m band though emergency communications groups use those bands when propagation requires it.

This information paper lists frequencies which emergency communications groups have provided to me and which they have not blocked for publication on websites. There are a number of additions to the table for this conference based on existing national usage in all bands.

By being informed of current usage, it is hoped that this will assist Committee C4 should any band plan changes be proposed for other reasons.

Country	Frequency (MHz)
Switzerland	1,873
France	3,532 CW
France	3,582 CW
